GODDARD SPACE FLIGHT CENTER

HOT WORK PERMIT

Before approving any permit, a Hot Work Representative (or designee) from the issuing organization shall inspect the area and confirm that precautions have been taken to prevent fire in accordance with NFPA 51B.

PRECAUTIONS

- ☐ Sprinklers in service
- ☐ Ventilators or respirators required
- ☐ Heat-producing equipment (e.g., welding regulator) in good repair
- ☐ Smoke detectors disabled (Fire Alarm Shop notified of devices to be disabled)
- ☐ Emergency Console notified at x8080 of work to be performed and estimated completion time

WITHIN 35 FEET OF WORK

- ☐ Floor clean of combustibles
- ☐ No combustible material or flammable liquids
- ☐ All wall and floor openings covered
- ☐ Covers suspended beneath work to collect sparks
- ☐ Areas above or below that may be affected

WORK ON WALLS, FLOORS, OR CEILINGS

- ☐ Combustibles moved away from opposite side of walls, floor, or ceiling
- ☐ Construction noncombustible and without combustible covering

WORK ON ENCLOSED EQUIPMENT

- ☐ Equipment cleaned of all combustibles
- ☐ Containers purged of flammable vapors

FIRE WATCH

- ☐ To be provided during and 30 minutes after operation
- ☐ Supplied with fire extinguisher (separate and in addition to building fire extinguishers)
- ☐ Trained in use of equipment and sounding alarm

When work is completed, return this form to the Issuing Office.
